

Li Long

1391****404

1988lilong@163.com

Education

Zhejiang University	Control Science & Engineering	Master	top 20%	2012.9 - 2015.3
Jiangsu University	Automation	Bachelor	1/82 (4.2/5.0)	2008.9 - 2012.6

Experience

Shanghai UCloud Information Technology Co., Ltd. April 2015 - Present
Basic Cloud Product Center UHost R&D Team Software Engineer

As the core team member, I'm responsible for developing and maintaining the cloud host, the image system and the initialization scripts. Complete projects such as image usage across available zone, image copy across project / region, local image to netdisk and pre-allocation. Switch the old architecture datas to the new architecture, and support cloud host migration across the set.

Solve users' problems in time. Develop monitoring and operation tools to simplify the operational work. Tutor two new colleagues and maintain some documents.

Microsoft STCA Suzhou (Internship) June 2014 - September 2014
Bing Relevance Query Rewrite Team SDE

Write Speller URL debug tool (front end + backend) to show the internal processing details of Speller.

Write a crawler in C# to get URL search results. Use Python scripts to convert results format.
